

Dokimos Project Summary

The following table has two sections. On the left side is a general overview of the Dokimos Project and the various topics that are covered in each of the 12 sessions. Some sessions cover multiple topics. For each of the topics, there are group activities and corresponding reading assignments so that you can better understand the key concepts for each topic. On the right side, you'll see the personal study that each participant does at their own pace. The personal study is an ongoing project that is worked on over time and must be completed in order to be ready for the commissioning ceremony. Some people go through the 12 sessions twice in order to get the most benefit!
